DECLARATION: PFAS REPORTING UNDER TSCA

The United States Toxic Substances Control Act (TSCA) is a federal regulation that allows the Environmental Protection Agency (EPA) to comprehensively manage chemicals in U.S. Commerce. This includes reporting requirements under TSCA Section 8(a)(7), which apply to perfluoroalkyl and polyfluoroalkyl substances (PFAS). TSCA mandates the reporting of certain information from U.S. manufacturers of all PFAS chemicals, including PFAS created as manufacturing byproducts. Reporting is also required for PFAS imported into the United States, whether on their own or as an incorporated article component.

PFAS are a large and complex group of chemicals; TSCA PFAS requirements apply to all types of PFAS used in U.S. commerce, as defined by the EPA's Chemical Data Reporting (CDR) database. More information is available from the EPA's TSCA PFAS webpage.

To whom it may concern,

We hereby send you information related to the U.S. Environmental Protection Agency (EPA) and the Toxic Substances Control Act (TSCA) Section 8(a)(7); this communication applies to all products sold or otherwise provided from Acciai Speciali Terni prior to the signature date of this declaration.

Acciai Speciali Terni certifies that none of the products referenced above contain any of the reportable substances.
